

Fractional Accounting

Clean Books. Clear Visibility. Ready for Scrutiny.

High-growth companies need accounting that keeps pace with the business. Clean, compliant financials support better decisions, smoother fundraising, and reduce risk as scrutiny increases. We provide experienced Controllers and Accountants who run day-to-day accounting with discipline, keeping the company ready for what comes next.

Accounting is structured to support today's needs while preparing the company for finance leadership, diligence, and future growth.

The Moments That Demand More

Founders who understand the importance of reliable financial infrastructure upgrade their accounting function as the business matures:

- Preparing for new funding or increased investor visibility
- Month-end close needs to be consistent, timely, and dependable
- Systems, tools, or workflows need to scale with the business
- Leaders want better visibility into cash, billing, and collections
- Finance and accounting need cleaner integration for modeling and planning

Experienced Teams Without the Full-Time Overhead

Your embedded accounting team may include:

CONTROLLERS

Overseeing close, reporting, and internal controls

ACCOUNTANTS

Managing transactions, reconciliations, and daily workflows

AP/AR SUPPORT

Expense management, collections, and process optimization

No offshoring. No contractors.

Every engagement is delivered by senior operators who integrate directly with your systems and workflows. Engagements are scoped up front with fixed monthly fees.

Accounting That Supports the Business, Not Just the Books

- Month-end close and financial statements
- Bank and credit card reconciliations
- AP and AR management
- Expense management and reporting accuracy
- Collections tracking and escalation workflows
- Process improvements that strengthen cash flow and controls

A Foundation That Reduces Risk

- Accurate financial statements that withstand audit and investor scrutiny
- Faster, more predictable month-end close
- Improved cash visibility and liquidity predictability
- Fewer accounting-related surprises as expectations increase
- A clean foundation that keeps the company ready for finance leadership

Proven Results

“98% of outstanding AR is now less than 60 days old, compared to 30 percent being more than 90 days previously. The improvement on this metric is spectacular. It is an improvement by an order of magnitude.”
