MINDSETS

A person in a dark jacket stands on a snow-covered mountain peak, arms raised in triumph. The background is a vast, panoramic view of a mountain range with a thick layer of white clouds below. The sun is low on the horizon, creating a warm, golden glow across the sky and the clouds. The overall scene is one of achievement and natural beauty.

PURPOSE-DRIVEN MINDSET

“There are two important days in your life. The day you were born, *and the day you find out why.*”

— *Mark Twain*

Today's smartest entrepreneurs seek purpose in their work – back companies with a purpose-driven mission.

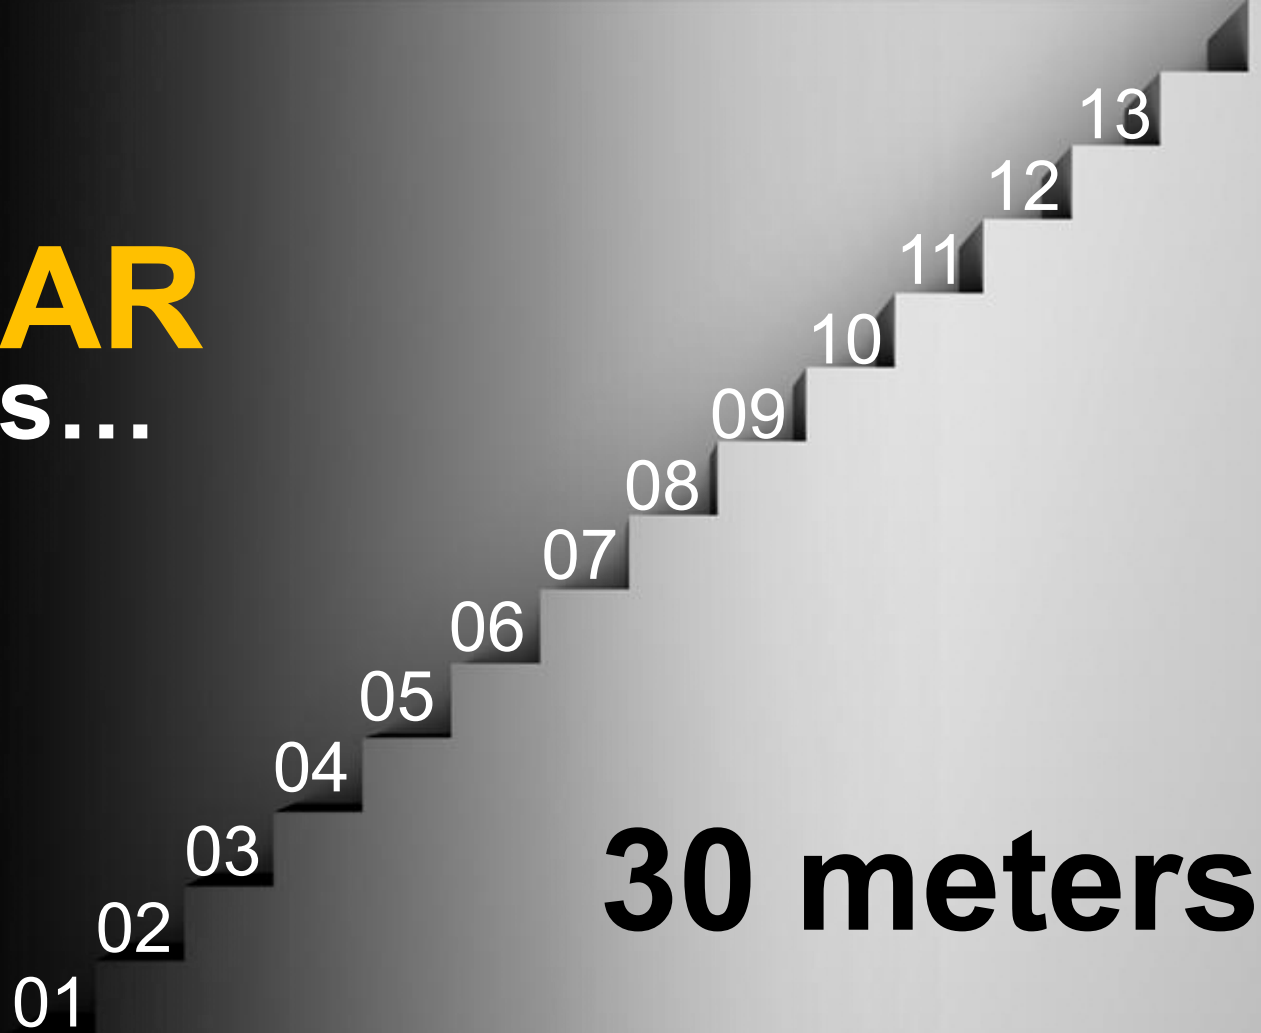

EXPONENTIAL MINDSET (10^{9+} Thinking)

Today we have the ability to ‘positively impact the lives of 1 billion+ people’

“We are local and linear thinkers, living in a global and exponential works”

MOONSHOT MINDSET

10X VS 10%

“The day before something is a breakthrough, *it's a crazy idea.*”

— *Burt Rutan*

CURIOSITY MINDSET

A person is silhouetted against a bright, hazy sky, standing on the edge of a rocky cliff. Their arms are raised in a gesture of triumph or discovery. The background shows a vast, open landscape with rolling hills and a body of water, all under a soft, golden light.

“What is more important than what you know, is the questions you ask.”

ABUNDANCE MINDSET

SCARCITY  ABUNDANCE

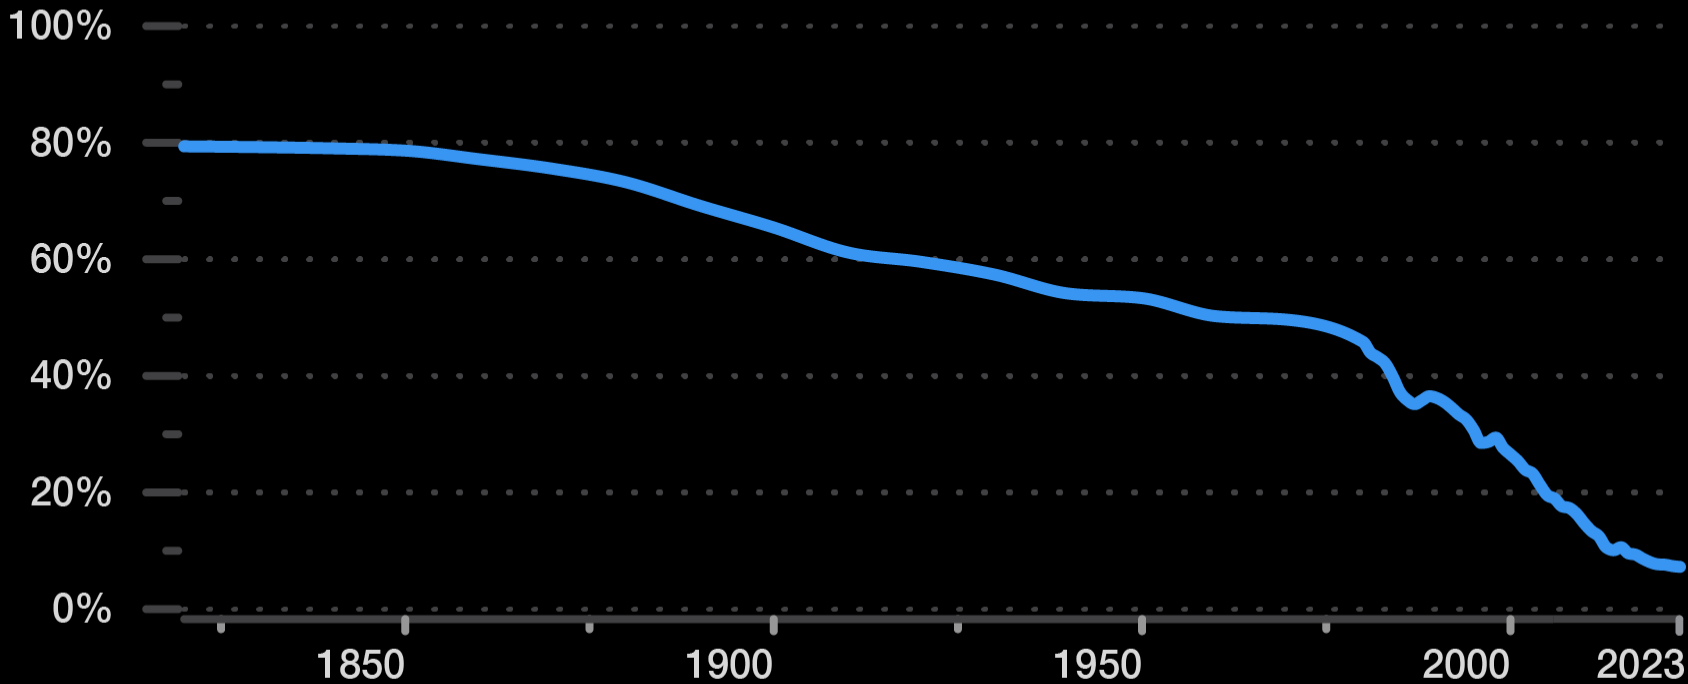

“Technology is a force that transforms scarcity into abundance.”

PROOF OF ABUNDANCE

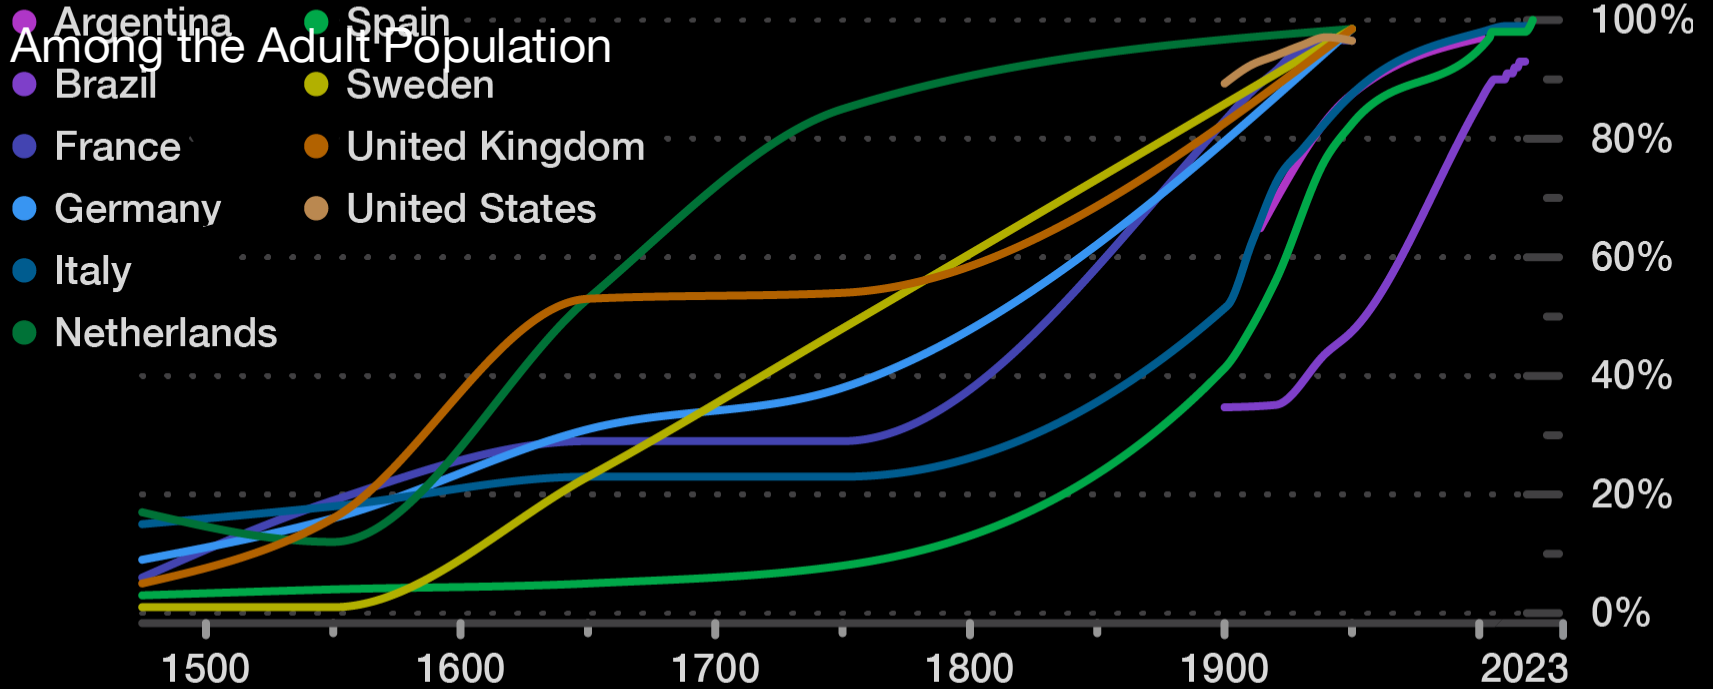

A low-angle, upward-looking photograph of a large, mature tree. The thick, textured trunk of the tree dominates the left side of the frame. Numerous branches extend upwards and outwards, covered in dense, vibrant green leaves. Sunlight filters through the canopy on the right side, creating a bright starburst effect and illuminating the scene with a warm, golden light. The overall atmosphere is one of natural growth and vitality.

Elon on the Speed of AI

ELON'S TERAFAAB EMPIRE

Target: 1 TW/year AI compute — 50x global AI compute (~20 GW). Surpass ALL fabs on Earth.

9-month chip cycle, faster than NVIDIA — Vertical integration across Musk's empire. Positions him to challenge TSMC.

INTEL is the foundry making Terafab real — Intel says its ability to design, fabricate/package chips makes Terafab work.

Intel Contributes 18A Process Node: 1.8-nm-class technology currently ramping to high-volume production in Arizona and Oregon.

WHY FOUNTAIN LIFE WAS FOUNDED

The human body is exceptionally good at hiding disease (until we look). Consider:

- ▶ You don't "feel" a cancer until **Stage-3 or -4**.
- ▶ **70%** of fatal cancers aren't regularly screened and often show symptoms only at advanced stages, reducing remission odds
- ▶ **70%** of heart attacks occur without prior symptoms and ~50% are fatal.
